

HIBS BYLAWS

- I. Protocol for Logo Usage: Schools who have active membership status may have the use of the HIBS logo for their school. The logo can be displayed and used on promotional materials and other items that the school feels necessary to use the HIBS logo.

- II. Protocol for Conferences and Presentations: Schools or individuals who would like to represent HIBS at a conference or present something on HIBS behalf must submit a proposal to the HIBS executive board, by way of the secretary, prior to applying for the conference/presentation. The executive board will discuss the conference proposal and then inform the party requesting to represent HIBS of their decision. Individuals who would like HIBS to be represented at a conference but do not feel that they would like to represent the organization can still turn in the conference information to the secretary and the executive board will see if anyone would be willing to represent HIBS at the conference.

*These bylaws were added and approved by the HIBS Membership on February 9, 2009.
